

# Agro Fosfito K

## Active Potassic Phosphite – E.U. Fertilizer

**AgroFosfito K is a liquid synthesis of active phosphite, specially developed to correct phosphorus shortages in plants and stimulation of phytoalexin defense actives.**

- **Developer of plant's natural defenses and stimulator of phytoalexines synthesis**, AgroFosfito K has capacity to strengthen cultivations' resistance to face likely fungus and bacterium attacks.
- **Natural product** that shows no security time, neither creates any waste.
- **Maximum and fastest efficacy**, as at foliar level, as radicular, due to systemic acting way.
- **Phosphorus and potassium efficient, active and concentrated source**, specially recommended in moments of these nutrients maximum need.

### Composition:

Phosphorus (P<sub>2</sub>O<sub>5</sub>), 20,00 % p/p.  
 of which 99,9% as phosphite.  
 Potassium (K<sub>2</sub>O) 15,33 % p/p.  
 pH 6-7  
 Density 1,07 gr/lit

### Application:

Cultivation	Drip irrigation	Foliar
Fruit trees, table vineyard, and citrus.	30-40 Kg/Ha Apply in 2-3 times during culture cycle	2-3 L/Ha
Vegetables, ornamentals and flowers	20-30 Kg/Ha Apply in 2-3 times during culture cycle	2-3 L/Ha
Olive, tropicals, etc.	30-50 Kg/Ha Apply in 2-3 times during culture cycle	2-3 L/Ha
