

# Agro NatuHormon

Natural bio-stimulator, ripen and fatten promoter

**Increases cellular division activity and floral division differentiation**

NatuHormon is a product of organic-vegetal base. It acts as **ACTIVATOR** of biological processes that promote the accelerated growing up of roots, stem, leaves and fruits.

This product is obtained from mixing the next vegetal extracts: alga (*Ecklonia maxima*), cereal origin amino acids, vitamins and micro elements, as well as Activic 117 "enzymatic-metabolic activator" which increases foliar absorption and quick nutrients assimilation, changing nutrients into active energy for the plant.

Activic 117 is given in a suitable balance in formulation, so that it's specially active for horticultural plants.

## COMPOSITION

<i>Amino acids</i>	6,00 %
<i>Nitrogen</i>	1,46 %
<i>Phosphor</i>	0,20 %
<i>Potassium</i>	0,83 %
<i>Magnesium</i>	203,05 mg/Kg.
<i>Calcium</i>	113,00 mg/Kg.

Other elements: iron, sulfur, molybdenum, zinc, manganese, vitamins, phytosterols, auxines, citoquinines, giberelins, betaine, fatty acids, sugars, etc.

## Components:

Vegetal amino acids, alga juice, vegetal stanols (Activic 117 enzymatic complex), excipients

## Application and doses

Cultivation	Foliar (gr/Hl)
Vegetables	250 gr./Hl.

Apply in intervals of 7-15 days, depending on temperature and wished performance.
