

Agro Omega

Self defense Promoter
Soy lecithin and essential oils EMULSION

**Self defense inductor protein-lipid promoter
Emulsinated amino acids with oleic and fatty acids
omega 3, 6**

Agro Omega is launched as an exclusive product in agricultural sector, mainly in integrated and ecological production, thanks to its special composition and formulation.

Agro Omega is a formulation made of lecithin and emulsinated with essential oils of vegetal origin; it has a promoter action of secondary metabolism components, which play an important role in defensive mechanism of plants, as well as in its development. Between these final products, we can find some with organoleptic qualities, antimicrobial proprieties, cutine monomers maker and regulator of growing up, such as damage reparatory hormone; all of them act as a natural plants aspirin (Jasmonic acid and Salicylic acid), responsible of activation and systematic induced resistance. It also stimulates and is favourable for thermogenesis, flowering and fruits colouring.

Agro Omega allows biological control of fungus and bacteria, mainly Oidia, Botrytis, Dents, Sclerotins..., in vegetables cultivation, fruit trees, vineyard and ornamentals.

WARNING:

Shake the product before use.
Adjust water pH for treatment between 5,5 y 7,5.
Don't mix with copper.

COMPOSITION:

Amino acids 6%
Fatty acids 16%

Also contains: Amino acids, Natural Phyto esterooids, Linoleic Acid, Linolenic Acid, Alfa-Linoleic Acid, Oleic Acid, Lauric Acid, Myristic Acid, Palmitic Acid, Palmitoleic Acid, Stearic Acid, Choline, A, E and B (B1, B2 y B5) Vitamins, Phosphatidilcoline, phosphatodiletanolamine, Phosphatodilinositol, Phosphor, Potassium, Calcium, Magnesium and excipients.

Patógeno

Ácido
Salicílico

Genes de respuesta
a infección:
proteínas PR,
fitoalexinas.

Resistencia Sistémica Adquirida

Application doses:

	Radicular Application	Foliar Application
Every Cultivation	3-4 Lts/Ha	2 Lts/Ha
